Please accept the Microsoft settlement as proposed. I believe that it is fair and just. Microsoft delivers a fine product at a very attractive price. I worked in the computer business for 30 years prior to retirement (not with Microsoft) and Operating systems were never so powerful and, imagine, available at only \$ 99.

Ever since the action against Microsoft, the entire Technical stock market has been in the tank. Let's accept this and do what is right for America.

Yes, we do vote.
